MEMORANDUM FOR: Director of Communications**SUBJECT : PFIAB Subjects for Discussion with the Director**

Attached is an extract from Mr. Clifford's letter to Mr. Helms. This extract deals with the number and diversity of reporting channels through which intelligence information flows. It has been decided to break this general subject down into technical and substantive components and you are asked to give a report to Mr. Bross, Deputy to the Director of Central Intelligence for National Intelligence Programs Evaluation, on these technical aspects. I think the question really comes down to whether there are duplicate channels in many places and whether these duplicate channels are justified.

25X1 [redacted] Please route your report to Mr. Bross through this office. I am sure that he would be pleased to discuss the format and content with you if you have any questions.
